

## COMP 321: Programming Challenges

### Assignment 8

This assignment includes one problem on kattis.

Please remember that the assignment must be solved individually. What I expect from you is to upload the following in the “Assignment 8” folder:

1) The codes that you used for solving the problems. The files must be named Problem\_IDi.extension, where ‘Problem’ is the problem ID, IDi is your McGill id and ‘extension’ is the program extension (.java).

**NOTE: Make sure to add comments to your code.**

2) A .pdf file. This .pdf must be named Assignment8\_IDi.pdf, where IDi is your McGill id number. Inside the pdf file, include a screenshot of the acceptance notification that you received on your Kattis account. Please make sure your name appears in it.

The due date for this assignment is **Sunday December 2<sup>nd</sup> before 11:59 PM.**

**For this assignment, we will solve the following problem on kattis:**

1. Adding words: <https://open.kattis.com/problems/addingwords>
